

Dear colleague,

We are delighted to announce the 2018/2019 edition of the Master of Science in Economics at the Department of Economics and Finance of the University of Rome Tor Vergata.

The MSc in Economics (LM-56) is a two-year graduate program entirely taught in English, with a strong emphasis on quantitative economics, and carried out in an international academic environment supported by intense tutoring.

The program is of interest to those who want to pursue a career in national and international institutions that require advanced analytical skills, or who want to strengthen their background in order to continue into a Ph.D. program in Economics worldwide.

During the second year, selected students have also the opportunity to attend a Dual Degree Program in partnership with the University of Gothenburg or the University of Konstanz. Moreover, every year we award best performing students with financial prizes reserved to first year students and to graduates.

We would be very grateful if you could help us spread the information about our program. Please do not hesitate to recommend us to your most talented and motivated students.

Further information is available at <http://economia.uniroma2.it/master-science/economics> where interested students can find the application form.

Best regards,

Daniela Vuri

Master of Science in Economics, Director

University of Rome Tor Vergata
