

## **Welfare, Inequality and Poverty Measurement**

**Prof. Giovanni Vecchi**

Master in Development Economics and International Cooperation (MESCI)  
University of Rome “Tor Vergata”

May 2021

### **Short description**

Prepare a brief technical note assessing the methodology used in any recent World Bank Poverty Assessment Report, using any of the World Bank’s repositories as your source. You can check, for instance:

<http://documents.worldbank.org/curated/en/home>

<https://microdata.worldbank.org/index.php/home>

### **Instructions**

You are asked to work *individually*.

After choosing a country/report that interests you, write a short review report where you *i*) identify the main methodological weaknesses (the *pars destruens* of your document), and *ii*) advise, best if in form of practical recommendations, on how to improve the analysis (*pars construens*).

Your report should not exceed 5,000 words and should include the list of references used in support of your arguments.

### **Due date**

June 4, 2021, 11:59pm (Rome time).

Please email your report to [giovanni.vecchi@uniroma2.it](mailto:giovanni.vecchi@uniroma2.it)
