

Dear student,

Please find attached the assignment for the course in Education and Development. Please, note that you will have to return your answers by April 5th at noon (12 pm).

I ask you to work individually. In addition, I encourage you to use the last question (Number 3) to go deeper into a theme in education you are particularly interested in. You can use all the literature we have seen in class or additional papers or reports, just be sure to use high-quality evidence (hint: to look for references, you can use Google Scholar, but be careful with the quality of the sources you find there). You should include citations and a final bibliography of the sources you cite.

Best wishes,

Erminia Florio
